

CREATE AND CONFIGURE IBM CLOUD SERVICES

CREATE A DATABASE IN CLOUDANT DB

Team ID : PNT2022TMID12758

Project Name: IoT Based Smart Crop Protection System for Agriculture

Team Leader: Gowtham Easwar K

Team Member 1: Vaishnavee K R

Team Member 2: Hari Prakash R

Team Member 3: Saranyagowri P

The screenshot shows the IBM Cloud console interface. The top navigation bar includes the IBM Cloud logo, a search bar, and user information. The main content area displays the configuration for a resource named 'node-red-viykg-2022--cloudant-1668533095045'. The 'Manage' tab is active, showing deployment details such as CRN, Location (Sydney), External endpoint, and Authentication methods. A 'Launch Dashboard' button is visible in the top right corner.

Cloudant DB is created

The screenshot shows the Cloudant Databases console. The 'Your Databases' section displays a table with the following data:

Name	Size	# of Docs	Partitioned	Actions
nodered	15.9 KB	3	No	[Icons for database actions]

The bottom of the console shows pagination information: 'Showing 1-1 of 1 databases. Databases per page 20'.

Database is launched in Cloudant DB
